## Current scams I

Here are a few of the current scams in circulation nationally and internationally:

- Door-to-door scam where a visitor claims to be from the Health Authority to test you for Covid-19. You
  do not have to open your door to anyone you don't know and aren't expecting.
- Telephone scam where someone claiming to work for the police, hospital, a bank or other service cold
  calls and says they are raising money or require payment for a local cause or service. Never respond
  to an unexpected call by giving away cash, cards, PINs, bank details or personal
  information no matter how tempting or convincing the caller may seem.
- Text or Email scams asking you to click on a link in order to obtain a Covid Passport and requesting payment and/or asking for your personal and financial data. Remember Covid Passports are free of charge and the NHS would never request a payment or ask for financial/personal data.
- Text and email scams claiming to be from HMRC, saying you are eligible for a tax refund. Never click
  a link or give out your bank details or personal information in response to an unsolicited
  email or text no matter how tempting or convincing the message may seem.
- Text and email scams offering a separate covid test for Omicron, which requests that you click on a link
  and then requests a payment and/or personal and financial data. Remember Covid PCR and Lateral
  flow tests are free of charge from the NHS and they would never request a payment or ask
  for personal/financial data.
